

Student Location Policy

The purpose of this policy is to comply with federal regulations on state authorization (34 CFR 600.9) and professional licensure disclosures (34 CFR 668.43 and 668.14(b)(32)). These guidelines do not apply to any other determination of student location, including but not limited to [residency for tuition purposes](#) or IPEDS reporting.

An enrolled student's location for purposes of state authorization and professional licensure disclosures will be determined at the time of application to the institution and at the time a student declares an academic major that leads to eligibility for licensure or certification when such declaration occurs after initial enrollment at New Paltz.

A student is determined to be located in the state of New York if any one or more of the following is true:

- The student's permanent residence is in the state of New York.
- The student has a local address in the state of New York.
- The student is living in on-campus housing.

Student location determinations remain in effect until a student submits a change of address at <https://my.newpaltz.edu>. Such a change may be submitted at any time, and the date of submission will be used as the effective date of the student's revised location.
